eign investors, though inclined to buy, have

BEET SUGAR CHAMPIONS.

Splendid Closing Scenes of the Convention at Lincoln.

RESTORATION OF BOUNTY ADVOCATED.

Colonel Scott Encouraged the Idea with a Ringing Speech-Permanent Association Organized-Interviews with Members.

LINCOLN, Neb., Dec. 18 .- [Special to THE Bgg. |-The beet sugar convention reassembled in Representative hall at 9:30 this morning, the attendance being nearly as large as it was yesterday afternoon. The first matter taken up was the report of the committee on resolutions. Chairman Furnas of that committee at once read the resolutions prepared and a discussion over their rejection or adoption at once commenced that consumed the entire forenoon.

The fight in favor of rejecting the report was led by Barnes, Wolf and Thornton of Lincoln, the latter gentlemen being especially bitter in his denunciations of the proposal to restore the bounty on sugar, which the last legislature saw lit to repeal.

The champions of the report were many. Colonel C. R. Scott of Omaha ied with a ringing speech in favor of the restoration of the bounty as proposed by the committee. He was followed by Hon Church Howe, who made one of his characteristic addresses in which he talked against the resolutions and defended the last legislature, and then wound up by declaring himself in favor of the report, providing the proposed bounty

ould be absolutely insured to the farmer. Finally Wolf of Lancaster county moved to strike out the preamble to the report and adopt the resolutions. This motion was not agreed to put it elicited a discussion which resulted in the modification of the preamble. Welch of Douglas then tried to have the proposed bounty of half a cent cut down to a quarter of a cent, but the proposition seemed to meet with disfavor as it received no sec-

The report of the committee on resolutions, as amended by the convention, was then adopted with but two or three dissenting votes. It was as follows:

Beet Su ar Platform.

Whereas. The state of Nebraska in the year 1859 enacted a law for the encouragement of the sugar beef industry, in consequence of which two factories were secured for Nebraska; which law was repealed in 1891, which repeal this convention regards as a mistake on the part of the people of Nebraska; there-

fore, be it Resolved. That the material interests of the people of the state demand that we, as a state, should practically restore the provis-ions of the law, and that the bounty should be restored in a manner just to the farmer and the manufacturer; and be it

restored in a manner just to the farmer and the manufacturer; and be it

Resolved. That this convention recommends and respectfully urges upon the next legislature the enactment of a law that will pay the growers of sugar beets in Nebraska for a period of five years a bounty of \$1 a ton for sugar beets to be manufactured into sugar, yielding at least 12 per cent of sugar, with a coefficient of purity equal to at least \$1 per cent; and be it.

Resolved. That there be also paid for a like period to the manufacturer of beet sugar in Nebraska a bounty of \$4 cent a pound for all sugar manufactured from beets grown in Nebraska, which shall not be paid unless the price paid to the growers of beets by said manufacturers be as follows: \$4 per ton for 12 per cent beets, purity \$0 per cent; \$4 per ton for 13 per cent beets, purity \$0 per cent; \$4 per ton for 14 per cent beets, purity \$0 per cent; \$4 per ton for 15 per cent beets, purity \$0 per cent; \$4 per ton for 15 per cent beets, purity \$0 per cent; \$4 per ton for 14 per cent beets, purity \$0 per cent; \$4 per ton for 15 per cent beets, purity \$0 per cent; \$4 per ton for 15 per cent beets, purity \$0 per cent; \$4 per ton for 15 per cent beets, purity \$0 per cent; \$4.50 per ton for 15 per cent beets, purity \$0 per cent; \$4.50 per ton for 15 per cent beets, purity \$0 per cent; \$4.50 per ton for 15 per cent of sugar; and be it.

Resolved. That the general government should provide a competent chemist at each factory during the working season; and be it further.

Resolved. That the secretaries of this con-

further
Resolved. That the secretaries of this convention be instructed to furnish each of our senators and representatives in congress with copies of this report urafing upon them the importance of this enterprise and work. Permanent Association Formed.

The committee appointed to consider the advisability of forming a permanent beet association reported favorably and recommonded the election of a president, secre-tary, assistant secretary, four vice presi-dents and a treasurer. The report was

dents and a treasurer. The report was
adopted, and Governor Meiklejohn was unanimously chosen president.

A very pretty little fight was developed
over the election of a secretary, Omaha
presented the name of W. N. Nason, while
Lincoln suggestea C. A. Atkinson. The
contest was quite spirited, both sides being
thereuply, determined upon having their thoroughly determined upon having their own way. Mr. Atkinson finally settled the matter by withdrawing, and Mr. Nason was then elected. M. A. Lunn was made assistant secretary, and Major McArthur treasurer. C. A. Atkinson, J. O. Cramb, J. S. Hoagland and C. R. Adams were selected for

vice presidents. More Resolutions.

The following resolutions were introduced by H. T. Clark of Omaha and unanimously adopted:

Resolved. That the secretary of this conven-tion be requested to correspond with the rep-resentatives of our government in Gormany. France and other beet sugar producing coun-tries regarding the most successful mode of growing beets, prices paid for same, and such further information as he may deem desir-able.

able.
Resolved, That this convention deem it desirable for the next legislature of our state to provide for a state board of immigrat on for the purpose of sending out correct information regarding our state, and a liberal appropriation be made for the same.

The following, offered by Dan Farrell, jr., was unanimously adopted: was unanimously adopted:

Resolved. That this convention recommends to capitalists contemplating the erection of beet sugar factories in this state in the future the pian of annexing a piant which will include machinery for the manufacture of glucose, for we find upon investigating that "5 per cent of the net cost of the beet sugar factory added will place an additional plant for the manufacture of glucose, and work in conjunction with the beet sugar industry and maintain the same in operation tweive months in the year.

There being no further business the first beet sugar convention adjourned sine die.

Views and Interviews. T. Leavitt, Grand Island-The past year I planted 500 acres of sugar beets. I labored under many disadvantages which next year I will overcome. For instance, I expended \$2,000 for roads and ditches. Next

year I will plant 650 acres of beets and I am confident that I will not only retrieve my past losses but have a handsome profit. I propose to farm about 1,800 acres next year in order that my workmen can be employed the year round, and when not engaged in the year round, and when not engaged in beet culture can engage in other farm work.

A. W. Fullreid, Douglas county—I am a farmer on a small scale. Last year I produced forty tons of beets from one and one-half acres. I could not get a satisfactory price for my beets at Norfolk. I then devised a method of my own for extracting the sirup from the beets. With an apparatus which cost me but \$5 lextracted \$400 worth which cost me but \$5 I extracted \$400 worth of sirup from my forty tons and had the res-

iduam left for stock feeding.

W. H. Dickinson, banker, Wahoo—1 wish to state for the benefit of the gentleman from Red Willow county, who says the farmers of his county are ready to gusrantee 5,000 acros of beets to any manufacturer, that I can fursish him with the remark of a synthesis of nish him with the names of a syndicate of New York capitalists who stand ready to

take him at his word. Colonel C. R. Scott, Omaha-The last legislature perpetrated a grievous wrong in repealing the sugar bounty. I want to say that when the next legislature is elected every candidate should be compelled to pledge himself to right the wrong. If he wilt not so pledge himself, don't elect him, for a man who will not pledge himself to do right, to maintain the faith and good name or the state, is not to be trusted.

J. W. Thummell, Grand Island-I have heard a number of statements on this floor to the effect that the farmers are ready to furnish the beets whenever the factories are lo-cated. The gentlemen making these statements may be perfectly sincere, but our ex-perience in Hall county for the past two years will not bear out the theory. The experience of our farmers has been that beet raising is unprofitable under the present schedule of prices. Something must be done to encourage the industry until it is firmly established.

American Sugar Machinery.

Ex-Congressman Dorsey hauded the secretary the following letter from George Q. Cannon, secretary of the Utah Sugar com-pany, whose angar works at Lehi in that territory have but recently been put in oper-ation. After sliuding to the shipment of a

sack of sample sugar Secretary Cannon says We dealer to call your attention especially o two facts connected with this manufac-

ture:

First. The beets from which this sugar is made are the first that we know anything about which have been raised upon this continent for this purpose by artificial irrigation. Second. The machinery by which this sugar is manufactured is the first machinery ever made for this purpose in the United States. Experts who have examined it pronounce it count if not superior to any imported from abroad.

Nebraska Power Company.

Amended articles of incorporation of the Sebraska Power company of Omana were filed with the secretary of state today. The general business of the company is the own-ing, controlling, using, selling and leasing certain inventious by one Whitcomb L. Jud-son, comprising foundation United States patents, together with subsequent and future inventions in the nature of improvements thereon, and also other patents for power and motor purposes; and also for con-structing street railways in any city or town n Nebraska and lowa. The capital stock is

The Fairbury Electric Light and Power company was incorporated today by H. E. Chubbuck, Fred E. Allen, Frank Dungan, S. E. Schweitzer and R. B. Howell. The capital stock is \$30,000.

Mayor Weir Triumphant.

For some time there has been a contest be-ween Mayor Weir and the excise board over the right to remove officers from the police force. During an absence of the mayor from the city the board removed six officers an ointed by that official. When he returned at once reinstated them and removed an qual number of officers appointed by the oard. When the salaries of the reinstated nen were due the poard enjoined the city treasurer from paying them their salaries, and thus the matter got into the courts. The case was settled today, Judge Field deciding that the right to remove officers rested with the mayor and not with the board.

Three Criminal Cases.

The jury in the Spellman case came in at 10 o'clock this morning and were discharged, as it had become evident to the court that there was no prospect of agreement. From the time the jury went out they were nearly divided, but it finally stood ten to two for acquittal and there hung. The defendant was released on \$500 ball and the case will be again taken up next term.

The attorneys in the Barrett murder case are arguing the case and making their final appeal to the jury, and the jury retired at 5 o'clock. The testimony as introduced is favorable to the defendant, and it is surmised the jury will be out but a short time. The next case to come is that of the state vs Bosselman.

Enjoined the State Board of Health, Dr. C. W. Dennis has filed a petition in the district court asking for a peremptory writ of mandamus compelling the State Board of Health to give him a certificate to practice in the state. He acts forth that he is a citizen of Lincoln and of Nebraska, a regular graduate of Rush Medical college, Chicago and of the New York postgraduate medica school, and attended lectures in a New York hospital, which he believes gives him authority or right to practice in Nebraska according to her law. He avers that he set these facts, together with his certificates, before the board on September 10 last, but despite the fact that he has frequently requested his cercificate they have refused to The plaintiff further sets forth give it him. that he had advertised his capabilities and published testimonials of his skill in curing disease, but to these the board took exception and term it as unprofessional and dishon orable conduct: likewise taking exception to his published statement "that neglecting a case of catarrh may cost you your life This is a case brought to test the right of the board to refuse a certificate to a regular

practitioner because he advertises. In the District Court.

The regular daily divorce trial came up in udge Fields' court today, it being the case of Dora Elizabeth Baake against Carl Banke. Both parties live in the extreme southern part of the county, and have been married forty-one years, the ceremony having been performed in Prussia. The plaintiff charges extreme cruelty that drove her from home, and the defendant alleges desertion. The principal fight is over the division of the 320

acres jointly and severally owned by them.

The fight over the estate of Sarah Graves, deceased, was amicably settled this morning. did not think the widow had divided the property justly, favoring her son.

Judgment for \$313.49 in favor of C. S.

Kibbe against O. J. Wilcox was rendered

rning by Judge Hall. Judge Stewart issued a writ of restitution requiring John Currie, the reformer, to get out of John Dewey's house at Twelfth and T streets. Currie had not paid any rent for over a year and brought in a long list of charges which the court refused to consider. Among them was a charge of \$16 for hunting the health officer to condemn the condition of the premises, and he also charged Dewcy \$4 a day for introducing him around among the aristocracy of Lincoln.

She was 6 and he was 7. He wanted her to promise to marry him. He offered candy, ice cream and nuts, but she was obdurate. Finally he said he would give her a bottle of Haller's Sure Cure Cough Syrup. She smiled, laid her hand in his and said, yours till death.

DOUBLE LYNCHING IN FLORIDA. olored Suspects Taken from Jail and

Riddled with Bullets. LIVE OAK, Fla., Dec. 18 .- Just before 12 o'clock last night a mob of about 100 men armed with rifles and revolvers called on Sheriff Potsdamer, seized, overpowered and took from him the keys to the county fail. and placing a guard over him they made a rush for the jail and took from their cells the two negroes suspected of the murder o young Parramore in the streets of Cranfor last week. The prisoners were bound to trees a short distance from the jail and the bodies riddled with bullets.

DUN'S REVIEW OF THE WEEK

Trade Good, with Favorable Symptom: for the Coming Season.

INCREASE IN THE VOLUME OF IMPORTS.

Business Centers Throughout the Country Well Supplied-Encouraging Outlook for the Future-Failures for the Week.

NEW YORK, Dec. 18 .- R. G. Dun & Co.'s veekly review of trade says: As the end of he year approaches general trade stackens and there is perhaps not more than the usual disposition to defer large transactions until

after stock taking and the holidays. It is satisfactory to see from nearly all oints that the reports which denote the inactivity usual at this season also observe a prevalent and strong belief that the husiness of the coming season will be unusually large and profitable. Commercial credits and confidence are in satisfactory shape for the transaction of an enormous business early next year.

Boston reports a fair trade in merchandise for the season. At Philadelphia reports are less encouraging.

At Baitimore manufacturers are active; at Pittsburg iron seems a little stiffer and an advance in window grass is looked for. At Cleveland retail trade is good and the

ron business shows indications of improve-At Cincinnati general trade is very fair, especially in groceries, and retail trace is

At Detroit trade is fair for the season and equal to last year's.

At Chicago general trade is a trifle nar-rower for the week but with good prospects; receipts of wheat and rye and of dressed beef are three times, and of corn double last year's; in cured meats the increase is itt per cent and in cattle ten per cent, while a sligh decrease appears in barley, a decrease of 20 per cent in lard, choose and butter and 50 per cent in wool. Collections are unusually large and money is in good demand.

At Milwaukee a heavy coal and stove failure causes some excitement and rainy weather makes the holiday trade unsatisfactory, but the jobbers report better trade than year ago. At St. Louis much strength is shown, par

icularly in groceries, shoes, oil and drugs, and the noliday trade is large. At St. Paul trade is brisk. At Minneapolis the grain and flour moveent greatly exceeds last year's. At Duluth the lumper cut for the year has

At Omaha trade is fair and money close. At Denver trade is good, out at Kansas City only fair for the season, the car famine checking the grain movement.

At Little Rock trade is only fair, but at
New Orleans receipts of cotton and sugar

are large, the demand for sugar good, and for rice moderate, and money is in active demand at fair rates. At Savannah trade is light and interior reports not favorable, and money is tight, but at Jacksonville trade is fair and the

ovement of oranges unusually large. The iron trade shows greater strength and arger sales of pig than for a long time, but extraordinary weakness is seen in some finished products. A sale of 2,000,000 pounds of lake copper for January delivered at 10% cents is fol-

lowed by offers at 10 cents and 1014 cents, but lead is unchanged and tin slightly higher. The coal market is very irregular, and the itput 4,039,598 tons greater than last year to date. In boots and shoes there is much business

but little noise, the shipments being still 314 per cent behind last year. An auction sale of 10,000 cases of rubbers occurred, and crude rubber is weaker at 64

cents for paraffine. In dry goods, clothiers are waiting, and very few orders have been placed for December, but the prospects are not untavorable. Wools steady, fleeco and territory being more active. Trade in cotton goods is imoving and print cloths are firm at 3 cents. Prices of breadstuffs have declined. Wheat cents, corn 7 cents and oats 214 cents, the ceipts continuing large beyond precedent; cotton receipts also exceed last year and the price has dropped an eighth; coffee is also an eighth stronger and pork products slightly tronger, but the general level of prices has fallen remarkably during the month thus far. Experts continue heavy, for two weeks in December at New York exceeding last year's

by 37 per cent in value. Except in a few places above noticed the oney markets throughout the country are well supplied. The business failures occurring throughout the country during the last seven days number 335, as compared with 320 last week.

For the corresponding week of last year the figures were 404.

LAST WEEK'S CLEARINGS. Gross Exchanges of the Country as Reported by the Banks.

NEW YORK, Dec. 18.-The following table, ompiled by Bradstreet's, gives the clearings house returns for the week ending December 17, 1891, and the per cent of increase or decrease, as compared with the corresponding week last year:

REVIEW OF WALL STREET.

Speculators Cautious on a Narrow Market-Builish Predictions.

NEW YORK, Dec. 18.—Bradstreet's weekly Wall street review says; Speculation displays no change in either temper or action rom the conditions which have prevailed for some weeks. The market continues to be a narrow one, and public participation is mainly confined to investment purchases of bonds, or the dividend paying stocks. For-

taken very little part, and the market has, in the main, been left in the hands of the pro-fessional operators. The distinguishing feature at the moment, however, is that this class are, with more than usual unanimity, either acting on the bull side or are convinced that the development of a wider and higher market is only a question of time. The facts that railroad traffic is beyond the facilities of many of the roads, that earnings continue to increase and one after another finds its possible to increase the rate of the dividends paid to the share-holders, seem to leave little doubt in the minds of Wall street operators that a buil market of the largest proportion is really at hand. These factors are supplemented by the influence of an easy money market, with the revival of investment, buying of bonds and by the seeming fact that some of the largest railroad interests in the country, headed by the Vanderbilts, are apparently extending efficient support to their properties. The result has been a quiet, persistent absorption of stock, which, with the notable firmness holders now display in keeping their possessions, gives an extremely builtsh tone to the entire market and occasions steady advances in most of the active shares and specialties. Bearish manipulations seem to have lost their force for the time being, and though the Gould properties were

heavy and the Richmond Terminal complica-

tions had a depressing effect on its own se-curities, which in the Northern Pacific were

also the object of unfavorable rumor

and bearish manipulation, none of these incidents were deemed able to change the course of the general market. The most important incident of the

week, was the restoration of the Rock Island dividend rate from a balf a cent, quotably, to I cent. The other grangers vere all strong.
The acquisition of the Milwaukee, Lake Shore & Western by the Northwestern was favorably regarded, although the proposed increase for the stock of the latter company caused some heaviness in its price, from which however, there was a recovery later on. Rumors as to the extent of the extra dividends on the Vanderbilts shares, took a favorable character, and were supported by heavy buyers. This action of the group in question had a stimulating effect on many diferent classes of active stocks and specialties. Chicago Gas was a feature and advanced, while the industrials generally displayed strength. Northern Pacific has continued to be the object of the bearish rumors and attacks. The triends of the property allege that the recent unsatisfactory earnings are the result of temporary causes, while the financial condition of the company is much better than alleged. Exchmond Terminal affairs were a matter of interest to the

STATESMEN FROM THE SIXTH.

at the close of the week.

street, though of small influence on the market. The coal stocks were the feature

Men Who May Represent the Big District in Congress. Mr. W. H. McCann, register of the Chadron land office, has been mentioned lately as a possible candidate next year for congres ional honors in the big Sixth district. Mr. McCann was seen in the city vesterday by a reporter, and in response to the mild im-

peachment he said: "It is pretty early to begin talking about congressional candidates. It is difficult to predict just what turn matters will take, but I should say just at present that the three mos! likely men mentioned in our district for congress are Jack McColl, James Whitehead and Judge Kinkaid, in the order I have mentioned them, Jack McColl is popular and aggressive. Jim Whitehead is very popular with the farmers and Judge Kinkaid is widely and favorably known, so that each of the three will doubtless have a large following. There are other candidates who may develop great strength

later on, but at present these three are the Another well known man from the Sixth was seen, who said: "There are candidates and candidates in the bix Sixth. We have McColl, Cady, Kinkaid, Whitehead, McCoil, Cady, Kinkaid, Whitehead, McCann, Dorrington and others coming to the Irona for congress. Dorrington, I think will expect the alliance support, I don't believe Kinkaid will be in it to any great extent. He is not positive consult to suit the nearest McColl will have enough to suit the people. McColl will have a strong following and Cady will have some good backers. McCann, I think is only in the thing for fun and to belp somebody else. The man who can go into the race against the field and win is James Whitehead of the Broken Bow land office. If Jim Whitehead will improve the opportunity as he should be can knock out any man in the district. He is very popular and is a man of ability and integrity. He has the confidence of the people. If Jim Whitehead wants to go to con-gress, I think he can go."

"Have you any candidates for state offices up in the Sixtn i''
"Oh, yes. Don't imagine for a minute that the big Sixth is going to lay down when it comes to the election of state officers. The Sixth stands ready to serve the dear people in any capacity, however humble or exalted it may be. Yes, we have a candidate for state treasurer, and he will swing into the race with mighty good backing. He is Mr. Joe Bartley of Atkinson, a banker and a mighty good man in any capacity. Several other offices to be filled next suring will attract the special efforts of some of the energetic citizens of the big Sixth, and we expect to be in the debate, as President Harrison would say, from the start to the finish."

Dr. Keenan Sues His Sister for Big Damages-Court Notes. A civil suit instituted Thursday in Madi-

son. Wis., recalls a sensational episode that occurred there a couple of months ago in which several Nebraskans were more or less interested. The suit is that of Dr. Keenan of Madison against his sister, Mrs. Catherine Tusler of this city.

The plaintiff sues for \$20,000 damages and

loss of profits caused by defendant's failure to carry out the provisions of an agreement. Briefly stated, the trouble is over an old business deal relative to Mrs. Tusler's horse ranch near Sidney, Neb. The doctor claims that he was to manage the ranch for five years and at end of that time own half of stock, which at the start numbered 461 head. He claims that Mrs. Pusier broke the con-tract at the end of two years. Her story was that the stock was constantly diminishing and that Keenan was appropriating the money entirely to his own use. Friends advised her to make a change or she would be left penniless, and that was why she dispensed with her brother's services. Some two months ago her attorneys, John Healey of this city and ex-Governor Meikeljohn of Fullerton, went to Madison to see Dr. Keenan and his attorneys with reference to a settlement, and were pounced upon and roughly handled by the trascible physician. An assault case for that demonstration is

still pending against him. District Conet Notes. Katie Ann Wiltfang, widow of Charles Lewis Wiltfang and administratrix of his estate, sues the Omana and Grant Smolting and Refining company for \$5,000 damages for the death of her husband. The petition al-leges that he was in the employ of the de-fendant company, and on, the 9th of Novem-ber last was badly scalded and burned by reason of the negligence of the company and died from his injuries. The plaintiff wants the above sum for herself and four children. The defendant company, in its answer, denies my and all responsibility for Wittfang's

A. D. Tower brings suit against William and Annie Dwyer to compel the transfer of certain properly that he alleges he bought on a contract, and which was to be turned over to him as soon as certain conditions, which, he claims, have now been performed, were complied with. FIXING FOR A NEW LEAGUE.

Another Base Ball Project in Which Omaha is Interested.

WILL BE DECIDED IN A FEW DAYS.

Plans to Secure Literature for the World's Fair-Pullman and Alger Interested in the Nicaraguan Canal-Chicago Gossip.

CHICAGO BUREAU OF THE BEE. CHICAGO, Ill., Dec. 18, The Chicago association club is interested n a project for a new league, to be composed of Chicago, Milwaukee, St. Paul, Minnoapolis, Kansas City, Omaha, Indianapolis and Columbus. Munneapolis and St. Paul like the idea, but will not take action for a few days. The real nitch is the fact that Chicago is proposed as a member, and it would be impossible to have a national agreement league with Chicago clubs in two different leagues. The sentiment outside of Chicago seems to be that the new league would be stronger with the substitution of Detroit or Buffaio for

World's Fair Poetry.

Invitations have been sent out by Presicent Bonney of the World's fair auxiliary to the famous men of letters of all countries asking them to prepare especially for the w orld's congresses some contribution of prose or verse, in most cases verse, representative of the best style of the writer thereof. It is expected to have songs and verses from the ablest of Asiatic, European, Australian and American writers. In the opinion of the sanguine and hardworking president of the auxiliary, there will be perhaps 100 of these specially written compositions, constituting the cream of the literary work of the decade. On the invitation of President Bouncy Sir Edwin Arnold has accepted the honorary corresponding membership of the auxiliary and a place on the advisory councils of the general congresses on religion and literature.

Nicaragua Canal Promoters. George M. Pullman is said to have become a large stockholder in the Nicaragua canal enterprise within the past few days. Pullman was a warm personal of General Grant, who often talked with him of the projected canal when it was on the boards that General Grant should be president of the company and General George B. McCiellan chief engineer. Mr. Pullman stood ready to back the enterprise largely. Incidentally it has leaked out that a large syndicate of gentlemen with whom General Alger is associated in heavy timber land investments on the Pacific coast, is interested through its individual members in the Nicaragua scheme.

Prohibition Editors Meet. Editors of the national prohibiton party press today discussed questions pertaining to

their newspaper and party work and com-pleted an organization to be known as the National Prohibition Press association. James Lamont, Rockford, III., is president. Odds and Ends. The most gigantic electric nguting post-the world is to be constructed in this city by The most gigantic electric lighting plant in the Edison Electric lighting company.

company is taking steps at present whereby there may be established a plant costing nearly \$1,000,000 on ground cost-ing half as much more. The location has been already decided on, but negotiations for the purchase of the land are still pending The present plant on Adams street disposed of as soon as possible and work on the proposed structure will be begun at once B. F. Ray, secretary of the Benton Iron Foundry, with offices in the Monon building, had two packages, one containing \$3,000 worth of diamonds and the other papers valued by the firm at \$10,000. Lest he migh forget to replace them before closing the safe, Mr. Ray says he put the boxes in his waste paper basket and then he went home and forget all about them until the next day. Then he found the waste basket had been emptied and the packages were missing. Now he wants the police to find them. The publishers of the London Illustrated News desire to reproduce on the exposition grounds a fac simile of Shakespeare's house Back ache, kidney pains, weak ness, rheumatism and muscula pains relieved in one minute by the Cuticura Anti-Pain Plaster. 25c.

at Stratford-on-Avon. It is proposed that the building shall be used as headquarters for the newspaper indicated, and it is desired that the structure be situated near the Brit ish headquarters. The British commissioner has approved of the plan. Chief McClaughrey has come to the rescue of the persecuted sparrow in an order foroidling the use of rifles and slingshots in the

F. C. Laird and W. H. Lee, comprising the firm of Laird & Lee, publishers, have been found guilty of sending an alleged immoral book through the mails. Ex-Congressmat W. E. Mason talked for three hours to the jury in defense of the publishers and com-pared the book to Shakespeare, Dickens and other skillful writers, but it did no good. Themas S. O Brien, who, according to THE BEE's cable dispatches from London, is wanted in Albany for the larceny of \$10,000, made this city his headquarters for many years. At that time he traveled with George Post, a tail, handsome man, and the two were as successful a pair of confidence men as ever buncoed a farmer out of his hard earned dollars. He is as able a confidence man as "Hungry Joe," and much more dan-gerous if put in a hole, but has up to date escaped punishment,

The Omaha delegates who attended the Missouri river improvement convention at Kansas City have returned home and tell of an amusing incident that occurred there at gubernatorial expense. Governor Thayer presided, and each dete

Seeking A Resort?

Twenty-five miles northeast of Kansas City, on the C., M. & St. Paul Ry., is a beautiful little city of 3000 inhabitants, built since the summer of 1880, solely on account of the discovery of the marvelous "FERBO-MANGANESE" and SULPHO SALINE waters and the thousands of cures that have since been effected by their use.

gate who took the floor was expected to give his name and that of his state. Governor Francis of Missouri arose, and after addressing the chair began his remarks when Gov-ernor Thayer leaned forward and interrupted

him with "your name and state!"

There was a painful silence of a few seconds' duration, during which the two governors eyed each other, when a voice from the gallery broke the stiliness with "What did one governor say to the other governor— your name and state!"

The house exploded, and the emparrass-

ment of the two great men was lost in the roars of laughter that were uncoupled by the vastly tickled delegates.

WILL CLEAN 'EM SOME TIME.

Major Birkhauser Makes a Rash Promise About Dirty Streets. Chairman Birkhauser of the Board of Pubic Works is authority for the statement that the dirt dropped by the graders is to be cleaned up, but thinks that it will not be just yet, as the grading work is not quite completed.

He intimates that the contractors have cleaned up Dodge street once or twice, and it costs them something every time. Furthernore, Mr. Birkhauser says that the Board of Public Worss is not to blame for it any way, as the police ought to arrest every man dropping dirt on a paved street.

In the same breath, the genial chairman lectars that this wouldn't do, because every dirt nauler is bound to drop some dirt unles he uses a perfectly tight box, and tha wouldn't do, because it would be slower to unload and would increase the cost of grad-ing. So he figures it out that the present plan is about as good as any, and says that the enforcement of the ordinances fouchin the matter have been ignored by commo consent. He says the board can't do differently, because it can't compel the con-tractors to clean up, but it can compel them to clean at the close of the job by withholding estimates until this work is done.

DREADFU LPSORIASI S

Covering Entire Boly with White Scales. Suffering Fearful. Cured by Cuticura.

My disease (psoriasis) first broke out on my left heek, spreading across my nose, and almost cover ng my face. It ran into my eyes, and the physician was afraid I would lose my evesight altogether. It spread all over my head, and my hair all fell out, until I was en-tirely bald-headed; It then broke out on my arms and shoulders 30 until my arms were just one sore It covered my entire body, my face, head and shoulders being the worst. The white scabs fell constantly from my head, shoulders and arms; the skin would thicken and be red and very ttchy, and would crack and bleed if thicken and be red and very ttehy, and would crack and bleed if scratched. After spending many hundreds of dollars, I was pronounced incurable. I heard of the CUTICURA RENEDIES, and after using two bottles CUTICURA RESOLVENT, I could see a change; and after i had taken four bottles I was almost cured; and when I had used six bottles CUTICURA RESOLVENT, one box of CUTICURA and one cake of CUTICURA SOAP, I was cured of the dreadful disease from which I had suffered for five years, I cannot express with a pen what I suffered before using the REMEDIES. They saved my life, and I feel it my duty to recommend them. My hair is restored as good as ever, and so is my eyesight.

MRS. ROSA KELLY, Rockwell City, Iowa.

Cuticura Resolvent The new Blood Purifier, internally (to cleanse the blood of all impurities and poisonous elements.) and CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite skin Beaulifier, externally, (to clear the skin and scaip and restore the hair), have cured thousands of cases where the shedding of scales measured a quart daily, the skin cracked, bleeding, burning, and itching almost beyond endurance, hair lifeless or all gone, suffering terrible. What other remedies have made such cures? ther remed es have made such cures?
